<b>学 習 到 達 目 標</b>									
<b>科目の到達 目標レベル</b>	This course is designed to increase the students English language proficiency by encouraging them to learn how to construct sentences that will make them more versatile speakers and writers. In each lesson, the students will be introduced to a new pattern that they then have to practice on their own and with their classmates. By the end of the course, the students should be able to independently use these patterns to express themselves clearly.

<b>学 習 上 の 留 意 点 お よ び 学 習 上 の 助 言</b>									
The students will be expected to write their answers in their textbooks. If they do not wish to do so, they should have a separate notebook only for this class. The textbooks will be checked either prior to or on the day of the Midterm and Term-End examinations. At that time, the students should have completed all of the work covered up to that point. Also, the students should write their name and student number somewhere on their book so that it can be checked and returned to them. Students will often be asked to write answers on the board for the benefit of their classmates. The class will generally be conducted entirely in English.
